Introduction: The Rise of Tracker Marine and the TX 17's Place in the Market

Tracker Marine, a subsidiary of White River Marine Group, has a longstanding reputation for producing durable, cost-effective fishing boats tailored to a broad demographic of anglers. The TX 17 model, introduced as part of Tracker's aluminum boat series, emphasizes portability, affordability, and practicality. To understand its market impact, this investigation explores the boat's design philosophy, construction quality, performance metrics, and user feedback.

Design and Construction: What's Under the Surface?

Material and Build Quality

The Bass Tracker TX 17 is constructed primarily from aluminum, a common choice for fishing boats due to its lightweight nature and resistance to corrosion. The boat features a flat bottom hull design, which enhances stability and ease of handling, especially in shallow waters. The aluminum gauge thickness generally ranges between 0.050 and 0.080 inches, striking a balance between durability and weight reduction.

Independent reviews suggest that Tracker maintains rigorous quality control standards during manufacturing, resulting in consistent welds and fittings. However, some users have noted that the aluminum, while durable, can be prone to dents if subjected to rough handling or collisions with submerged objects.

Dimensions and Capacity

- Length: 16'10" (approximately 17 feet)
- Beam: 74 inches
- Weight: Approximately 620 pounds (without motor)
- Maximum Capacity: 4 persons or 485 pounds
- Fuel Capacity: 6 gallons

The dimensions make the TX 17 notably manageable for trailering and storage, fitting comfortably in standard garages and boat docks. Its capacity limits make it suitable for small groups, ideal for local lakes and rivers.

- Cruising Speed: Around 15-20 mph at moderate throttle
- Acceleration: Smooth and responsive, suitable for quick trolling or repositioning

The boat's lightweight construction allows for efficient fuel consumption, with some users reporting fuel efficiencies of up to 4-5 miles per gallon at cruising speeds.

Handling and Stability

The flat-bottom design provides excellent stability in calm waters, making it an ideal platform for casting and fishing. However, in rough water conditions, the boat can be less forgiving, experiencing more bounce and less comfort compared to V-hull counterparts.
