- Cost behavior analysis
- Cost accumulation and assignment
- Cost-volume-profit (CVP) analysis

- Job Costing and Process Costing

These are methods of assigning costs to products:

- Job Costing: Custom jobs or orders; tracking costs per job
- Process Costing: Continuous production; averaging costs across units

- Activity-Based Costing (ABC)

A more refined approach to assigning overhead costs based on activities:

- Identifying cost drivers
- Allocating overhead more accurately
- Enhancing product costing accuracy

- Budgeting and Planning

Forecasting future financial results through:

- Master budgets
- Operating budgets
- Cash budgets

- Variance Analysis

Comparing actual performance against budgets:

- Analyzing variances in materials, labor, and overhead
- Using variances for performance evaluation and corrective actions

- Performance Measurement and Responsibility Accounting

Assessing managerial performance based on controllable and uncontrollable factors:

- Responsibility centers
- Financial and non-financial performance metrics

- Capital Budgeting

Evaluating long-term investment opportunities:

- Net present value (NPV)
- Internal rate of return (IRR)
- Payback period

Practical Application and Decision-Making Tools

Question What are the key differences between managerial accounting and financial accounting according to Noreen and Garrison 10th edition? In Noreen and Garrison's 10th edition, managerial accounting focuses on providing internal management with relevant information for decision-making, emphasizing future projections, detailed segment reports, and flexibility. Financial accounting, on the other hand, is oriented toward external users and emphasizes historical data, standardization, and compliance with accounting standards. How does Noreen and Garrison 10th edition define cost behavior and its importance in managerial decision-making? Cost behavior in Noreen and Garrison's 10th edition refers to how costs change in response to changes in activity levels. Understanding fixed, variable, and mixed costs helps managers predict costs, analyze profitability, and make informed decisions about pricing, budgeting, and cost control. What is the role of budgeting in managerial accounting as described by Noreen and Garrison 10th edition? Budgeting in Noreen and Garrison's 10th edition is a crucial managerial tool for planning, coordinating, and controlling operations. It helps set financial targets, allocate resources efficiently, and evaluate performance by comparing actual results with budgeted figures. How does Noreen and Garrison 10th edition explain the concept of contribution margin and its significance? The contribution margin, as explained in the 10th edition, is the difference between sales revenue and variable costs. It signifies the amount available to cover fixed costs and generate profit, making it essential for break-even analysis, pricing decisions, and assessing product profitability. What are the main components of a cost-volume-profit (CVP) analysis in Noreen and Garrison 10th edition? The main components of CVP analysis include sales volume, selling price per unit, variable costs per unit, fixed costs, and contribution margin. CVP analysis helps managers understand how changes in these components affect profit and determine break-even points. In what ways does Noreen and Garrison 10th edition suggest managerial accounting can support ethical decision-making? The 10th

edition emphasizes the importance of integrity, transparency, and adherence to ethical standards in managerial accounting. It advocates for accurate reporting, avoiding manipulation of data, and fostering a culture of ethical responsibility to support sustainable and trustworthy decision-making.
